INTERNATIONAL HEALTH STUDY

(PURSUANT TO S. RES. 255, 86TH CONGRESS)

April 7, 1961

Dr. Joshua Lederberg
Prof. of Genetics
Stanford University
Sanford, California

Dear Prof. Lederberg:

May I invite your attention to the indexing of your own comments, which will be found at the conclusion of Part III, of the enclosed two volumes.

These two Appendix volumes bring together information which the Subcommittee has been compiling during the past two years. The Information consists of welcomed letters, memoranda and articles which were received in response to our invitation to authorities in many health fields.

The Subcommittee is deeply appreciative of the wonderful cooperation which it has received.

I, for one, feel that on the basis of this type of helpful reference "tool," the Senate will now be in a stronger position to consider strengthening international medical teamwork.

Enclosed also is a memorandum which describes the Subcommittee's overall work and its publications.

Kindest wishes.

Sincerely,

Hubert H. Humphrey

Hubert H. Humphrey
Subcommittee Chairman
